

Data and Applications Monsoon 2022 – Project Phase 2

Team – 60

September 2022

Critical Evaluation -

1. Database Requirements -> Assumptions ->

- CORRECTIONS:

- A. “One branch has only single organization under it”

CORRECTION: an organization works under only 1 branch but not vice-versa.

2. Database Requirements -> Weak Entity Types -> (Corrections and additional assumptions)

- HEALTH STATISTICS

- a. We accidentally added the surrogate key here we instead were adding it on “Biomedical Researches” entity.

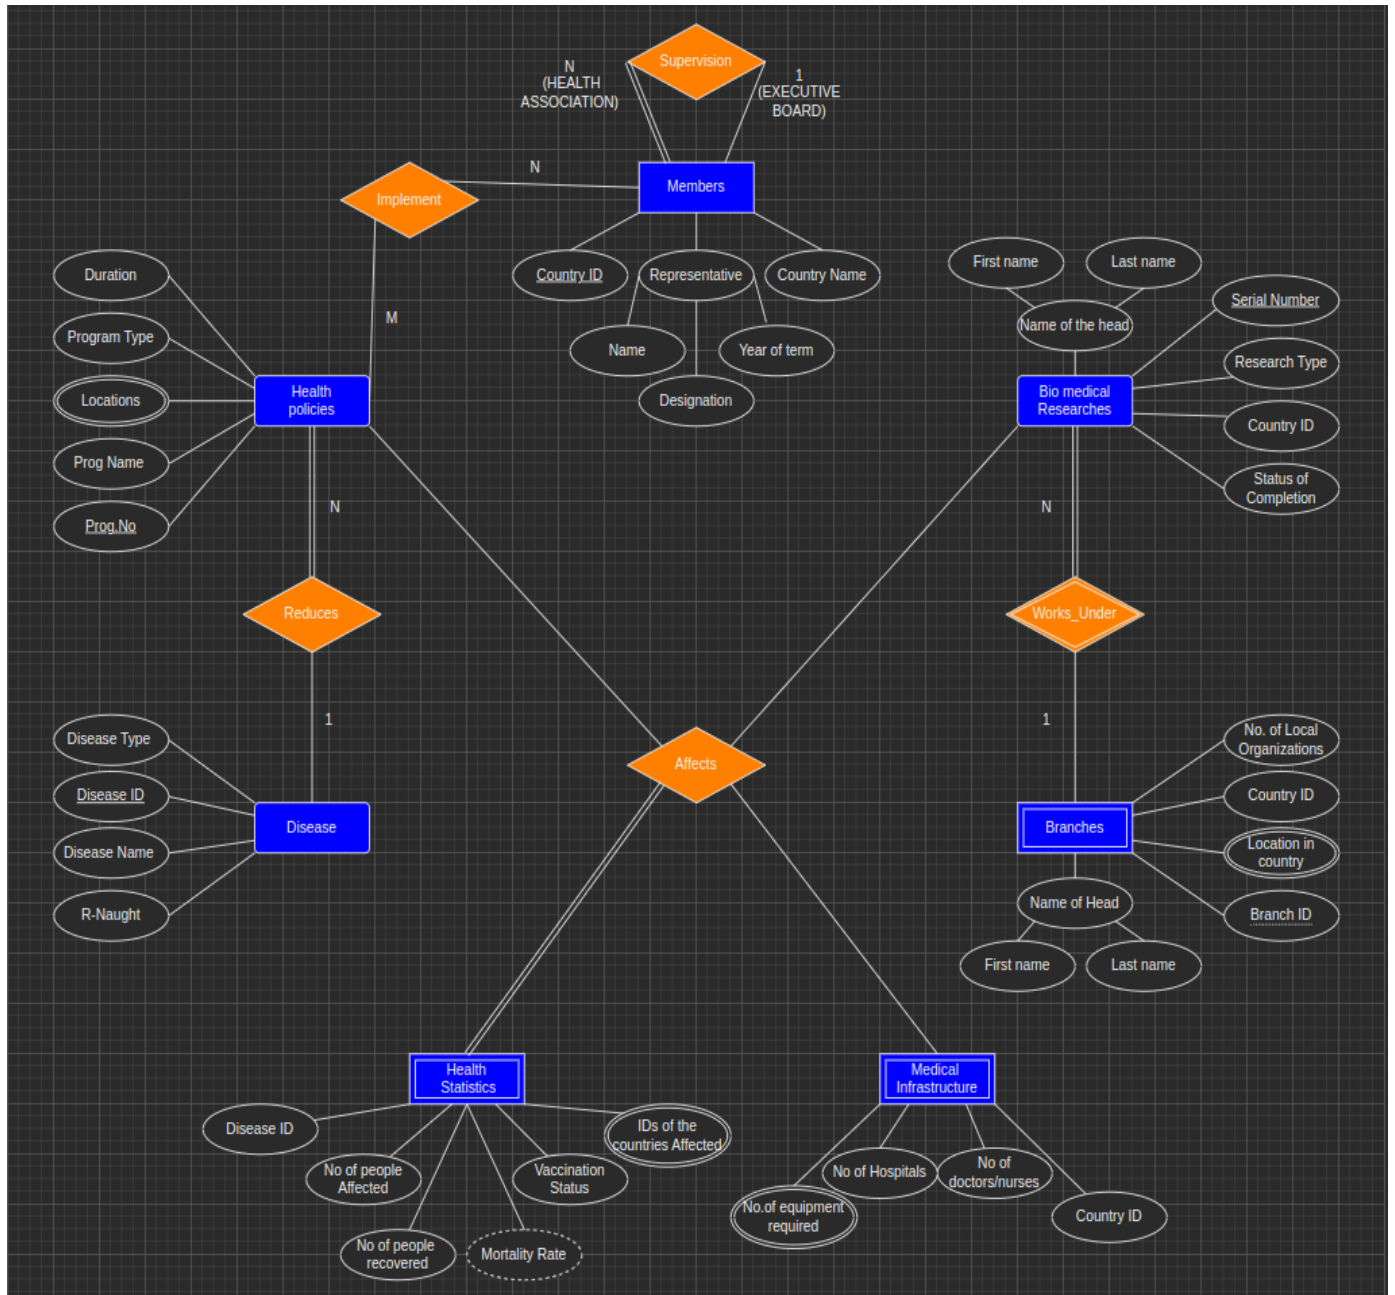

3. Database Requirements -> Strong Entity Types -> (Corrections and additional assumptions)

- BIOMEDICAL RESEARCHES

- a. Already mentioned above.

- b. Instead of the attribute “Most Affected countryID” it was meant to be “IDs of the Countries affected”.
